# optibelt ELASTOMIT LEISURE & SPORT

**DEUSERBANDS ARE USED IN NUMEROUS  
WAYS BY AMATEURS AND SPORT PROFESSIONALS.**

Our Deuserband was developed especially for an efficient training program. It is distributed through our trading partner, Deuser GmbH. With this simple training device, versatile exercises can be practiced, whereby a purposeful whole body training is made possible. Since 1967, the Deuserband has proven its high elasticity and resistance both in profile and leisure sports and has been an indispensable component when it comes to targeted muscle building ever since.

## DEUSERBAND

### ORIGINAL DEUSERBAND

The Deuserband is a special sports resistance band that is used to train muscles. This band is used in various types of sport to improve strength, coordination and endurance. Other uses include rehabilitation gymnastics.

### DEUSERBAND LIGHT

This training band is designed with 40 % reduced resistance than the original Deuserband. The length can be flexibly adjusted using a special clip. Its two handles can be used to perform exciting and easy special exercises.

## SUSTAINABILITY AND QUALITY<sup>1</sup>

The Arntz Optibelt Group takes a responsible approach to the environment, as a matter of course.

The quality and continuous further development of the company's processes and products are of central importance to the Arntz Optibelt Group, as is the assurance of the quality and environmental management standards, which are certified according to DIN EN ISO 9001 and 14001.

The Arntz Optibelt Group is committed to complying with existing environmental laws and regulations as well as official regulations.

Above and beyond the requirements of existing environmental laws and regulations, we also work continuously on reducing any negative environmental influences caused by our products or business activities.

The continuing improvement of our environmental footprint and our efficient use of resources is a result of our responsible use and careful conservation of energy, water and other resources.

High-quality products, technologically advanced solutions and close personal ties between our company and our business partners help to improve the level of satisfaction of all parties involved.

## REACH, RoHS AND CONFLICT MINERALS<sup>1</sup>

The Arntz Optibelt Group attaches particular importance to compliance with the legal regulations, guidelines and standards applicable to its products.

For the Arntz Optibelt Group, it is therefore essential that its suppliers are aware of and ensure compliance with the applicable legal requirements, such as REACH, RoHS and "Conflict Minerals – the Dodd-Frank Act".
